

# TITLE IX AT YALE

The Title IX Office and Deputy Title IX Coordinators work to both prevent and respond to sex- or gender-based discrimination, including sexual misconduct.

## You may want to contact us to:

Report a concern related to sex- or gender-based discrimination, including sexual misconduct.

Discuss resources (including support and protective measures) and/or resolution options available to address a concern.

Access supportive measures (such as no contact agreements and academic, housing, or workplace modifications) to address the impacts of sex- or gender-based discrimination. Support is also available for pregnant and parenting individuals.

Request Title IX-related education or outreach support, including trainings on sexual misconduct prevention, reporting responsibilities, and more.
